## WISCONSIN

Bugles Across America is looking for volunteers who are interested in helping honor our nations veterans by the sounding of TAPS. Due to a shortage of buglers, our nation's military is currently unable to perform a live rendition of TAPS when providing honors to all veterans. In 2000, Bugles Across America was founded in order to help provide volunteers to assist honor details with a live rendition of TAPS sounded by a live bugler. BAA's membership has grown nationally to over 7500 members and here in Wisconsin to over 100 members. BAA's mission is to help insure that every veteran has the opportunity for the rendering of live TAPS versus a recorded version. If your up to the challenge, can sound TAPS or provide other support CONTACT US!!

If you're comfortable playing solo in front of a crowd and can sound TAPS in a style and manor that will properly honor our fallen veterans, their families and all in attendance, we're looking for you!!!

If you're currently sounding TAPS while working with a veterans service organization, funeral directors or playing in a high school band and have not yet heard about us give us a call. BAA members also participate in providing TAPS at many public functions: Memorial Day, Veterans Day, Flag burning ceremonies and others.

The Wisconsin Department of Veterans Affairs Military Funeral Honors Program is working with BAA. When a military bugler is not available they use our data base as a source for buglers.

*If you can sound TAPS, have questions, or can help support our efforts contact us!!* [www.buglesacrossamerica.org](http://www.buglesacrossamerica.org)
