The “Need an Account?” link on the center-right of the webpage, located below the “Log in” button, enables users to create an account and profile that can be used for future grant applications. The improved system enables applicants to track their applications, maintain a consistent user profile across multiple grant applications, and enjoy a more user-friendly grant application experience. If you have any feedback or suggestions regarding the new Grant Portal, please share your thoughts and experiences with the WDVA team at the following:

The County Transportation Grant application has also been streamlined and reduced to improve the user experience for applicants. As a reminder, any new or expanding programs enter projections for the current state fiscal year, whereas existing programs provide the confirmed data from the previous state fiscal year.

Thank you for your service to Wisconsin’s Veterans, and for your feedback as the Wisconsin Department of Veterans Affairs continues to improve user experiences for grant applicants. If you have any questions regarding the County Transportation Grants, please contact the Grants Team at:
