January 20, 2022

Dear Union Grove Members, Friends, and Family:

The COVID cases in Wisconsin continue to rise, so we urge everyone to take extra precautions to keep yourself and your loved ones safe during this surge of the Omicron variant. All of Wisconsin's 72 counties continue to be in critically high in community transmission.

Since we last updated you yesterday, we have had 3 employees test positive for COVID-19. Currently, we have 36 cases of COVID-19 on campus (6 members, 30 employees).

The best protection against serious hospitalization and life-threatening illness is to be vaccinated and boosted. Please visit the Wisconsin Department of Health Services website to find a COVID 19 vaccine or booster shot available near you: *https://www.dhs.wisconsin.gov/covid-19/vaccine-get.htm*

We encourage you to do your part to limit your indoor, public social interactions when possible. Please remember to physically distance, wear a mask, and wash your hands frequently.

Thank you for your continued commitment to the health and safety of our campus.

Sincerely,

Syble Barry
