

January 28, 2021

Dear King Members, Friends, and Family:

It's been about one year since the first case of COVID-19 was identified in Wisconsin. It has been a long, tough year but we have learned a lot and we continue to learn more. As vaccinations roll out across the state, in order to emerge from this pandemic, the one thing that health care experts continue to emphasize is the importance of mask wearing, social distancing, and hand washing. Please continue these safe practices.

Since my update on January 26th, we've had one member and one employee positive for COVID-19. Because we've also had some recoveries, we now have seven active positive cases of COVID-19 on campus (three members, four employees).

Thank you again for all of your support and understanding of all of those who care for our members. We truly appreciate being able to serve our nation's heroes and their loved ones.

Sincerely,

A handwritten signature in black ink that reads "T. Servatius".

Tammy Servatius, Commandant
