

February 7, 2022

Dear King Members, Friends, and Family:

We are very grateful to see a decreasing number of virus cases in our Home, even though all of Wisconsin continues to report critically high levels of COVID-19 transmission. Thank you to all who take personal responsibility in their daily routine to limit the spread of the virus in the community and into our Home.

Since we updated you last on February 3, we have had 2 employees and 2 members test positive for COVID-19. Accounting for recent recoveries of employees and members, currently we have 16 cases of COVID-19 on campus (5 members, 11 employees).

As always, please continue to adhere to the guidance set by the Centers for Disease Control to wear an N95 or KN95 face covering when in public, maintain healthy social distancing, avoiding crowds, and washing your hands frequently. If you have not yet been vaccinated or boosted, please consider doing so as this reduces the risk of serious hospitalization or prolonged illness.

Thank you for your continued commitment to the health and safety of our campus.

Sincerely,

A handwritten signature in black ink that reads 'T. Servatius'.

Tammy Servatius, Commandant
