

Veterans Home - Chippewa Falls

4.07.2022 Veterans Home Weekly Family Updates

Dear Family & Friends -

We are pleased to announce that 2 people recently recovered from COVID-19, which means that we currently have no COVID-19 cases at the Veterans Home.

Additionally, as you're aware, the CDC along with CMS and the WI Department of Health, are recommending a second booster shot for people over 50 years old. We are currently working to schedule a COVID-19 vaccination clinic to offer these vaccinations to our members who are eligible. As soon as we learn more about time frames, dates, quantity available, etc., information will come out through this email and texting in Lifeloop again.

We'd like to thank you for your ongoing support. We are grateful to all our members and family members for giving us the inspiration to provide quality care and services each day. We're so fortunate to serve you all.

Best,

A handwritten signature in black ink, appearing to read "Megan M. Corcoran".
