

May 10, 2021

Dear King Members, Friends, and Family:

Good afternoon. We want to wish all our mothers a belated Happy Mother's Day! We are so grateful for our dedicated team members who gave so much of themselves to keep our moms (and all members) healthy, comfortable, and personally connected when COVID kept us apart.

Since we updated you on April 27<sup>th</sup>, we have had one employee test positive for COVID-19. This employee does not work in a residential building and is the only case of COVID-19 on campus at this time.

Per the Centers for Medicare and Medicaid Services (CMS), we continue facility-wide COVID-19 testing for staff and members. Because this employee does not have direct contact with members, we are able to continue to allow in-room visits at this time. That said, it is always best to call ahead to learn which member units are open or visit [www.WisVetsHomesCOVID.com](http://www.WisVetsHomesCOVID.com).

As public health protocols continue to ease as the rate of cases continues to decline in Wisconsin, we continue to encourage you to exercise caution to remain safe and healthy. Please continue to wear a mask when out, remain six feet away from others, avoid crowds and poorly ventilated spaces, wash your hands frequently, and get vaccinated. If you are still in need of a vaccine, a new tool makes finding one easier. Visit <https://vaccinefinder.org/> for more information.

Sincerely,

A handwritten signature in black ink that reads "T. Servatius".

Tammy Servatius, Commandant
