

June 22, 2022

Dear King Members, Friends, and Family:

The Wisconsin Department of Health Services (DHS) is reporting COVID cases in our state are seeing an increase this summer. We encourage everyone to take extra precautions to keep yourself and your loved ones safe while in the community. Since the first case of COVID-19 was diagnosed in Wisconsin, our practices and procedures have continually evolved, but one thing remains the same - our dedication to our members, to each other, and to our community.

Since we updated you yesterday, we have had 2 members and 1 employee test positive for COVID-19. Accounting for all recent recoveries, currently we have 9 cases of COVID-19 on campus (6 members, 3 employees).

Sadly, we've also had a member with COVID-19 pass on. One of the very best things about working at King are the relationships we build with the men and women who have served our country. We take great pride in caring for them. The people who live here are more than just patients to us, and what we do is more than just a job. We send our deepest condolences to the member's family and friends.

If you are feeling ill, or if you have any symptom of COVID-19, please postpone your visit and get tested. While you are visiting with your loved one on our campus, we ask that you wear a face mask, practice physical distancing, and limit your movement throughout our care community as much as possible. We also urge you to get vaccinated and boosted as your best defense against serious illness from the virus.

Thank you for your continued commitment to the health and safety of our campus.

Sincerely,

A handwritten signature in black ink that reads "T. Servatius".

Tammy Servatius, Commandant
