

September 21, 2021

Dear King Members, Friends, and Family:

According to the Centers for Disease Control and Prevention, every county in Wisconsin is now classified as having “High” community transmission levels, the most severe category of COVID-19 transmission. The CDC is advising anyone, regardless of vaccination status, in a county rating as having a ‘high’ community transmission level should wear a mask when at indoor public locations or when attending indoor private gatherings to help prevent the spread of the virus.

Since we last updated you yesterday, we have had one member test positive for COVID-19. Currently we have three cases of COVID-19 on campus (two members, one employee). As a reminder, we are reminding visitors to check in before visiting campus so that you can ensure that you will not be disappointed when you arrive. Call or visit www.WisVetsHomesCOVID.com before visiting.

We all need to do our part to stop the spread of COVID-19. If you haven’t already, please consider getting vaccinated if you are able. Do not let your guard down. Please continue to adhere to the guidance set by the Centers for Disease Control when it comes to face coverings, social distancing, and hand washing.

Sincerely,

A handwritten signature in black ink that reads "T. Servatius".

Tammy Servatius, Commandant
