

February 15, 2021

Dear King Members, Friends, and Family:

I hope this letter finds you healthy and warm.

Nearly one million people in Wisconsin have received a COVID-19 vaccine and about 240,000 have received both doses of the vaccine. As those receiving vaccinations continues to grow, coronavirus cases and deaths continue to fall. We'd like to encourage you to check with your health care provider to learn how you can be vaccinated in your community.

Since my update on Thursday, February 11th, we've had one employee test positive for COVID-19. There are no new positive cases among members. This is the only active positive case of COVID-19 on campus.

Again, I urge you to get vaccinated against COVID-19 if you haven't already if you are eligible. There are two safe vaccines available and every person who gets vaccinated helps us to bring an end this pandemic. This is how we can help protect the vulnerable population that we serve at our Wisconsin Veterans Homes. The Wisconsin Department of Health Services has information and resources for you to review about the vaccine. Visit: <https://www.dhs.wisconsin.gov/covid-19/vaccine.htm>.

Finally, let's all continue to take precautions against the virus by staying home as much as possible, wearing a mask when out, remaining six feet away from others, and frequently washing our hands.

Sincerely,

A handwritten signature in black ink that reads "T. Servatius".

Tammy Servatius, Commandant
